

One Stop Shop!

Quality Imaging Equipment Refurbishments and Construction Services - All Under One Roof.

TGM²

*We provide **Total Geometric Machine Managment***

There is no substitution for accuracy when it comes to providing the medical community with state of art imaging equipment! We provide imaging equipment that is refurbished for both functional operation and cosmetically to original manufacture specifications. Our refurbished equipment program includes site planning and shipping to your facility. Full 100% warranty after onsite installation and operator training.

Contact us to see why so many people have selected TGM² to be their previously owned imaging equipment and maintenance provider!

TCSI
TGM CONSTRUCTION SERVICES, INC.

Design/Build • General Contracting • Consulting

Our aim is to combine your personal taste and vision and use them to create what you want and need. We bring a wealth of planning, design and building experience to the table, which will ultimately result in insightful remodeling, renovation or new construction.

We are a full service contractor, specializing in medical facilities, radiation protection, commercial/government facilities and **GREEN** building products. With over 35 years of field experience in the industry, we would like to earn your business.

Your Trusted Medical Equipment Source & Service Provider
